Services Offered

- We assist low-income households in attaining safe and stable housing through a variety of rental assistance programs funded by the U.S. Department of Housing and Urban Development (HUD). More than 11,500 households are served through housing assistance payments made to landlords on behalf of the families or by leasing housing owned and managed by HACSB. These programs provide a critical safety net for households in San Bernardino County, where a family would need to earn over three times the minimum wage to afford rent for a two-bedroom apartment. HACSB also owns and manages affordable rental communities that are not federally funded, bringing additional affordable housing opportunities to our communities in addition to the traditional rental assistance programs we administer.]

Specialized Programs

- For our HACSB families with a section 8 housing choice voucher, we offer our Homeownership Program. Similar to housing assistance in other affordable housing programs, the Homeownership Assistance Program provides mortgage assistance for up to 15 years for working families and up to 30 years for disabled families if the homeowners meet income requirements.
